

PROJECT PORTAL[®]

DATA INSIGHTS + CONTROL = EFFICIENT PROJECTS THAT DELIVER BETTER RESULTS

Project Portal[®] is a powerful and intuitive cloud-based SaaS offering developed by the environmental data experts at ddms. Use Project Portal for end-to-end project work, from in-depth data to project documents, maps, budgets, schedules and more.

WHY PROJECT PORTAL?

- Backed by world-class ddms environmental data expertise
- Purpose-built for environmental data projects
- Easy and affordable (no training needed!)
- Supports users across multiple organizations
- Individual security controls
- Tracks progress

Project Portal saves time and money every year while increasing overall transparency. Project Portal manages my data, displays current state information in a dashboard format, and allows document sharing – these features have reduced my need for project reporting from weekly to monthly while seamlessly allowing the EPA to keep current on status. This was a huge cost and time savings.

Mike Palmer, de maximis Project Coordinator
